

INTRO

OREIO has been a great organization and an integral part of my journey in real estate for 10 years. It has delivered great value in education and confidence; to help us achieve goals in building investment solutions. Let us bring an executive together that evolves OREIO's platform. We can cultivate innovation and have a more pragmatic education program.

- 1) With changing times, we have an opportunity to realize new education avenues, different communication mediums and different networking opportunities.
- 2) Bring people together and improve our network by recognizing their accomplishments and service to our local community.
- 3) Communication with membership to improve feedback and build upon our common vision.
